careers.blueshieldca.com — Full Report

1 · Summary

careers.blueshieldca.com is a 95-URL careers marketing site on the **iPR Software** newsroom CMS. All job search, job detail and apply traffic goes to **Oracle Recruiting Cloud** (confirmed as the ATS; the SOW text names Workday). The site has a homepage, 7 section landing pages, a text page, the **Our People** story hub (77 local stories plus 39 stories cross-posted from news.blueshieldca.com) and 3 legacy account pages. 25 components (38 variations) were observed; per the SOW they consolidate into **4 templates** and **17 blocks (12 core)** for Blue Shield Careers (the SOW's Stellarus and Ascendiun cover pages are excluded).

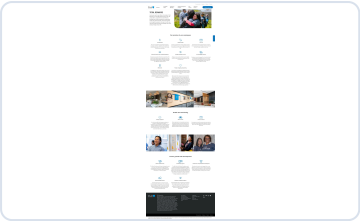

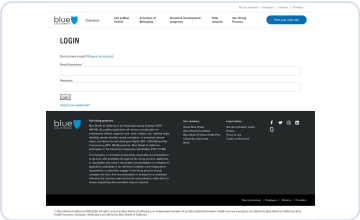

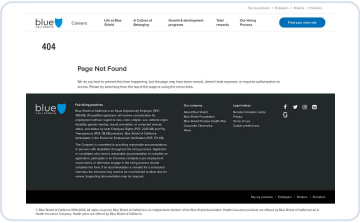

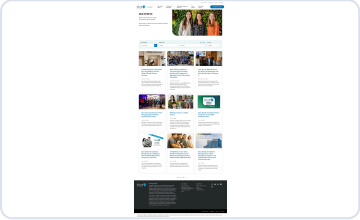

SOW-aligned dev effort: **550 h (≈69 person-days, 13.8 person-weeks), no contingency** — see the estimate and SOW alignment.

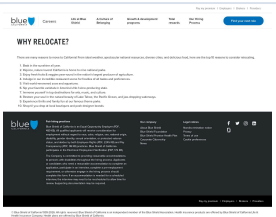

2 · URL discovery

sitemap.xml returned 97 entries; 2 malformed entries (careers.blueshieldca.comhttps://demo.com, …https://www.blueshieldca.com/) were excluded → 95 URLs. 92 analyzed successfully; /alerts, /confirm and /file return HTTP 404. Job pages are not in the sitemap because they live in Oracle Recruiting Cloud.

3 · Templates

Screenshot	Observed page type	Pages	SOW template	Layout
	Story Article (Our People blog post)	77	Blog article	Article header (Role/Topic categories, title, date, authors, LinkedIn/Facebook/X share), optional hero image (59 of 77), rich-text body with inline images/columns (30), YouTube video (14), image gallery (3), "More Stories" 3-card related row.

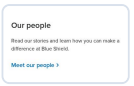

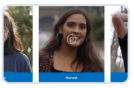

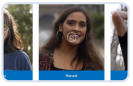

Screenshot	Observed page type	Pages	SOW template	Layout
	Section Landing Page	7	Landing	Page header (title + subtitle over hero image) followed by authored sections: icon tiles, image galleries, text banner, alternating text/image, ERG cards, video tiles, promo banner, FAQ accordion. 7 pages: Culture of Belonging, Growth & Development, Total Rewards, Our Hiring Process, Life at Blue Shield, Our Workplace Model, Events (currently empty).
	Account Form (login / registration / password)	3	Out of scope — SOW: account flows (login, registration, password) are handled by Oracle Recruiting Cloud	iPR platform account pages — Login (2 fields), Registration (9 fields), Password recover (1 field + CSRF). Title-only header + form. Candidate accounts live in Oracle Recruiting Cloud, so these are likely legacy newsroom-subscriber accounts → recommended to retire.
	Retired URL (404 on live site — redirect only)	3	Excluded — 404 on live site; on BSC legacy exclusion list / redirect map	/alerts, /confirm and /file are listed in the sitemap but return HTTP 404 on the live site. No build — redirect/retire only (job alerts are now offered by Oracle Recruiting Cloud).
	Story Listing & Search (Our People)	2	Content page	Page header + search box, Roles (15) and Topics (8) filters, sort (Newest/Oldest/Title A–Z/Z–A), 9-per-page story card grid with pagination (116 stories: 77 local + 39 cross-posted from news.blueshieldca.com). /blog/search is the results state of the same view.

Screenshot	Observed page type	Pages	SOW template	Layout
	Careers Homepage	1	Homepage	Full-width image hero with heading + “Find Your Next Role” CTA (Oracle Recruiting Cloud), intro text section, 3-up image gallery (lightbox) paired with 3 feature tiles, “Why work with us” quote tiles, “Find Your Next Role” locations CTA band, global feedback poll.
	Text-only Content Page	1	Content page	Title-only page header (no hero image) with long-form rich text (Why Relocate?).
	Authors Listing	1	Content page	Authors index for the Our People blog (renders the listing shell).

The automated fingerprint clustering produced 4 layout clusters (homepage 1, image-hero-content-page 68, text-led-content-page 22, video-landing-page 1); the pages were split by purpose into 8 page types, which map onto the SOW’s 4 templates.

4 · Blocks (SOW)

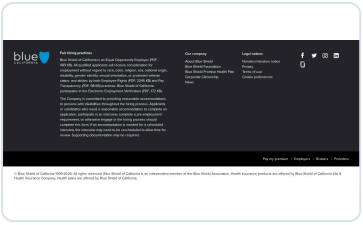

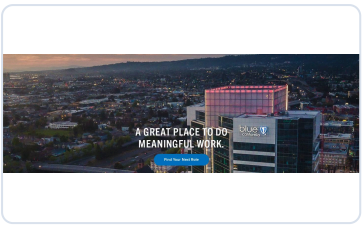

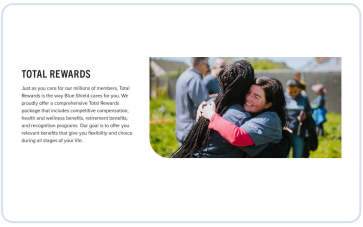

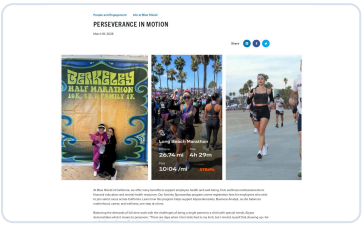

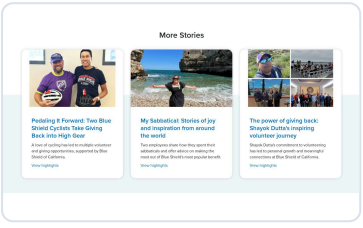

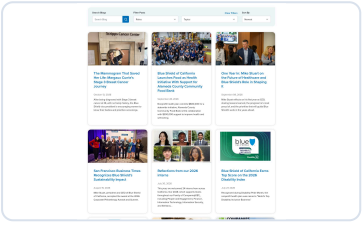

SOW block	Type	Options	Observed components	Hours
Header	core	desktop nav + utility bar + dropdown, mobile off-canvas menu	 Global Header & Navigation (desktop nav / mobile off-canvas)	18
Footer	core	default	 Global Footer (fair hiring, links, social)	10
Total (17 blocks, 12 core)				**178**

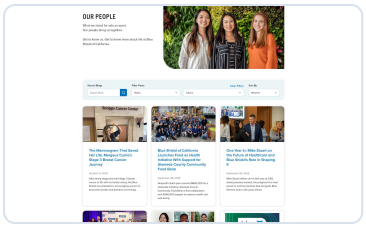

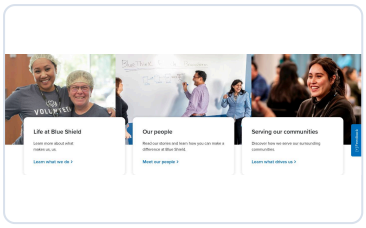

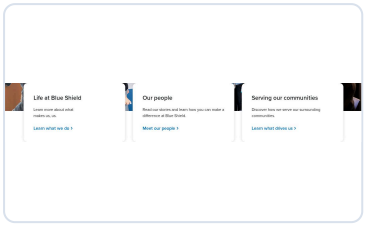

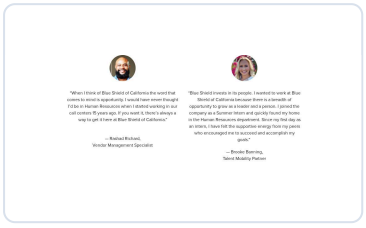

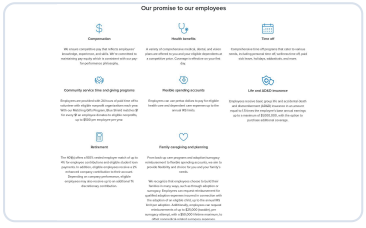

SOW block	Type	Options	Observed components	Hours
Hero	core	home (image + CTA), page header with image, title only	  Homepage Hero (image + headline + CTA), Page Header (title + subtitle + hero image)	14
Cards	core	related stories (auto), story grid / curated, feature links, icon tiles, logo (ERG), video tiles (opens modal), authors	      Story Cards (tiles), Feature Link Tiles, Icon Tiles (benefits / hiring steps), ERG / Belonging Cards, Video Tiles with Modal Player, Authors Listing	22
Columns	core	inline text-image, alternating rows, text over image	 Text + Image Columns	14
Accordion	core	FAQ	 FAQ Accordion	6
Embed (YouTube)	core	lazy YouTube facade	 Inline Video Embed (YouTube)	6
Modal	core	video / image dialog	  Video Tiles with Modal Player, Image Gallery with Lightbox	6
Quote	core	employee quote with portrait	 Employee Quote Tiles	6
Table	core	default	one story body contains a data table	6
Total (17 blocks, 12 core)				**178**

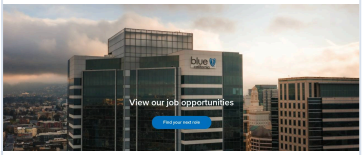

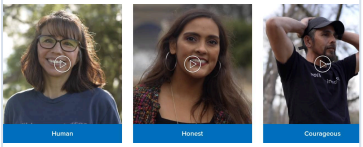

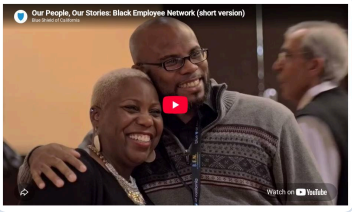

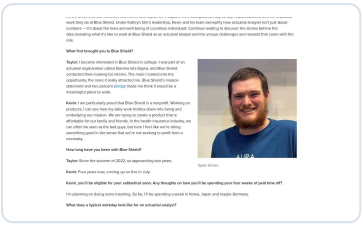

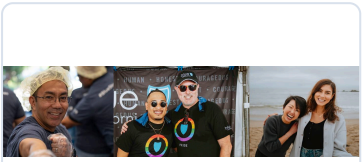

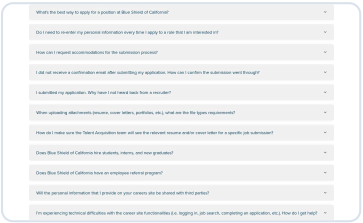

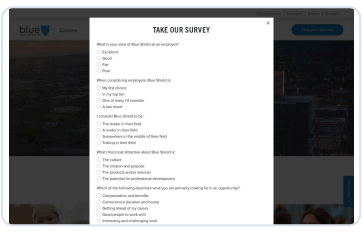

SOW block	Type	Options	Observed components	Hours
Search (OOTB)	core	keyword search over query index	 Story Listing — search, filters, sort, pagination	10
Fragment	core	nav / footer / shared content	already in the repo — configuration only	2
Article Header (auto-block)	custom	with hero image, without hero image	 Story Article Header (categories, date, authors)	12
Social Share	custom	LinkedIn / Facebook / X	 Social Share Buttons	6
Image Gallery (lightbox)	custom	gallery + feature tiles (home), standalone 3-up	 Image Gallery with Lightbox	12
Banner	custom	statement text, image + CTA, locations band (map background)	  Text Banner (statement), Promo / CTA Banner	10
Story Listing (filters, sort, paging)	custom	listing, search results	 Story Listing — search, filters, sort, pagination	18
Total (17 blocks, 12 core)				**178**

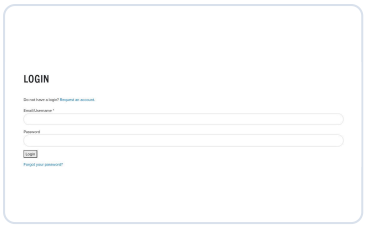

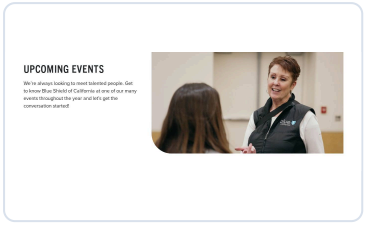

5 · Observed components

Screenshot	Component	Complexity	Pages	SOW target
	Global Header & Navigation (desktop nav / mobile off-canvas)	High	92	header (core)

Screenshot	Component	Complexity	Pages	SOW target
	Global Footer (fair hiring, links, social)	Medium	92	footer (core)
	Homepage Hero (image + headline + CTA)	Medium	1	hero · option home
	Page Header (title + subtitle + hero image)	Low	14	hero · options page / title only
	Story Article Header (categories, date, authors)	Medium	77	article-header (custom)
	Social Share Buttons	Low	77	share (custom)
	Story Cards (tiles)	Medium	80	cards · options related / grid
	Story Listing — search, filters, sort, pagination	High	2	search (core, OOTB) + story-listing (custom)

Screenshot	Component	Complexity	Pages	SOW target
	Authors Listing	Low	1	cards · option authors
	Image Gallery with Lightbox	Medium	7	gallery (custom) + modal
	Feature Link Tiles	Low	1	cards · option feature
	Employee Quote Tiles	Low	1	quote (core)
	Icon Tiles (benefits / hiring steps)	Low	2	cards · option icon
	Content Section Styles (centered title, blue band, white text)	Low	81	section styles (core decoration, §1)
	Text Banner (statement)	Low	1	banner · option statement

Screenshot	Component	Complexity	Pages	SOW target
	Promo / CTA Banner	Low	2	banner · options image CTA / locations
	Video Tiles with Modal Player	Medium	1	cards · option video + modal (core)
	Inline Video Embed (YouTube)	Low	15	embed (core)
	Text + Image Columns	Medium	33	columns (core)
	ERG / Belonging Cards	Low	1	cards · option logo
	FAQ Accordion	Medium	1	accordion (core)
	Feedback Poll (modal survey)	Medium	92	**OUT OF SCOPE — SOW: no web forms with server-side calls**

Screenshot	Component	Complexity	Pages	SOW target
	Account Forms (login, registration, password recovery)	Medium	3	**OUT OF SCOPE — SOW: account flows handled by Oracle Recruiting Cloud**
no live instance	Job Alerts / Talent Community Sign-up	Medium	0	**OUT OF SCOPE — SOW: jobs funnel deep-links to Oracle Recruiting Cloud (native job alerts)**
	Events Listing	Low	1	default content — empty page migrated as-is

6 · Integration points (as-is)

Category	Integration	Pages
ATS / job search & apply (link-out)	Oracle Recruiting Cloud — Candidate Experience (ecge.fa.us2.oraclecloud.com, site CX_1003, utm_medium=jobshare)	92
Content platform (to be replaced)	iPR Software newsroom CMS (contentbuilder, /media/themes, /_gallery/get_file)	92
Content platform (to be replaced)	iPR media CDN (iprsoftwaremedia.com)	92
Content platform (to be replaced)	iPR account system (login / registration / password)	3
Cross-site content feed	news.blueshieldca.com stories cross-listed in Our People (39 of 116 tiles)	2
Consent management	OneTrust (cdn.cookielaw.org, OtAutoBlock + blueshieldca.com/vendor/onetrust)	92
Analytics / tag management	Google Analytics 4 via gtag.js (G-2ZH0HXENHZ)	92
Analytics / tag management	Google Search Console verification token	1

Category	Integration	Pages
Analytics / tag management	Google jsapi (legacy loader)	92
Forms & surveys	iPR feedback poll + /poll_charts/	92
Forms & surveys	iPR job-alerts form (alertsForm.js — /alerts 404)	92
Forms & surveys	Qualtrics — reasonable accommodation form (bsca.qualtrics.com)	92
Video	YouTube (iframe_api on all pages; embeds/modals)	92
Fonts	Adobe Fonts / Typekit (use.typekit.net/wcg8bju — proxima-nova)	92
Front-end libraries (to remove)	jQuery 3.5.1, Bootstrap bundle, Owl Carousel, lightGallery, Magnific Popup, jquery.cookie	92
Social	Share links (LinkedIn, Facebook, X)	77
Social	Profile links (Facebook, X, Instagram, LinkedIn, Glassdoor)	92
Corporate properties (link-out)	blueshieldca.com (PDF notices, privacy, terms, awards, utility nav)	92
Corporate properties (link-out)	citizenship.blueshieldca.com	92
Corporate properties (link-out)	blueshieldcafoundation.org	92

In SOW scope: OOTB search, 1 OOTB workflow, Oracle Recruiting Cloud deep-links, OneTrust CMP, Adobe CJA (replacing GA4), media re-hosting to DA.live. Everything else above is retired, kept as a plain link, or out of scope.

7 · Observed behaviors

bsc-header

Desktop (1440px): utility bar, logo, horizontal primary nav and a “Find your next role” button; “Life at Blue Shield” carries a dropdown (ipr_dropdown_2.js) that does not open on hover. Mobile (390px): the nav collapses to a hamburger (“Open Navigation Menu”) that opens an off-canvas “Menu” panel with the same links (sub-items indented), a close (×) button and a full-width “Find your next role” button. That button leaves the site for Oracle Recruiting Cloud.

bsc-poll

“[+] Feedback” (footer-feedback-link) reveals a hidden #poll block with 6 radio questions; submit validates (poll_alert), then shows a success state and results charts from /poll_charts/.

bsc-gallery

Gallery images link to /_gallery/get_file/?file_id=…; clicking opens them in a lightbox (lightGallery / Magnific Popup).

bsc-video-tiles

Tiles link to youtube.com/watch URLs and open a modal YouTube player (Magnific Popup iframe type).

bsc-faq

11 .faq-item entries with .faq-caller headers toggle .faq-body answers (collapsed by default).

bsc-story-listing

GET form (q, c[Role], c[Topic], s, search_type=and) reloads /blog/search with results; ?page=N pagination, 9 tiles per page, 13 pages; 39 tiles link to news.blueshieldca.com.

onetrust

OneTrust banner (“We use trusted partners to improve your experience” + Continue) shows on first visit; OtAutoBlock blocks tags until consent; footer “Cookie preferences” reopens it.

bsc-share

Share buttons open LinkedIn/Facebook/X share dialogs in a new window.

canonical-defect

SEO defect on the live site: 10 key pages (home, belonging, blog, events, growth, hiring, life, total-rewards, why-relocate, authors/search) declare canonical URLs on http://uat.bsccareers.iprsoftware.com — several at legacy slugs (/diversity-equity-inclusion, /university-programs, /our-benefits-and-programs, /workplaces-of-the-future). Fix in EDS and add the legacy slugs to the redirect map.

8 · Forms

Page	Kind	Fields	Posts to	SOW
/blog	search / filter	5	careers.blueshieldca.com	In scope (OOTB search)
/blog/search	search / filter	5	careers.blueshieldca.com	In scope (OOTB search)
/login	login/auth	2	careers.blueshieldca.com	**Out of scope**
/registration	registration	9	careers.blueshieldca.com	**Out of scope**
/password_recover	password recovery	2	careers.blueshieldca.com	**Out of scope**
/	feedback poll (all pages)	6	(js-handled) iPR poll service	**Out of scope**
/	job alerts (all pages, endpoint 404)	0	(js-handled) iPR alerts	**Out of scope**
/	accommodation request (link-out)	0	bsca.qualtrics.com	Plain link

9 · Recommendations

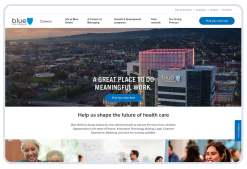

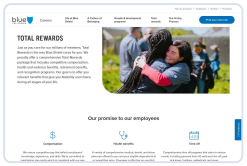

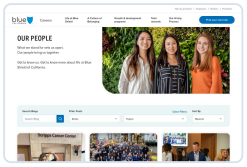

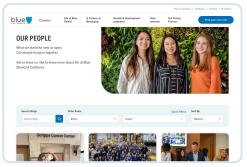

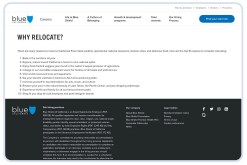

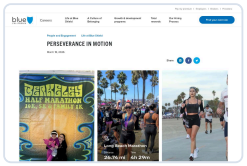

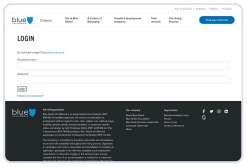

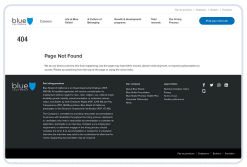

- Keep Oracle Recruiting Cloud as the ATS; standardise deep links + UTMs and track apply clicks in CJA. Update the SOW wording from Workday to Oracle Recruiting Cloud.
- Migrate the SOW baseline of 22 blog articles — BSC to name the 22 stories (or the 55 to exclude) and confirm what the SOW’s 61 content pages refer to.
- Replace the iPR blog with an EDS query-index story hub (OOTB search + Role/Topic filters, sort, pagination).
- Drop the iPR account pages, feedback poll and dead job-alerts form; redirect to Oracle Recruiting Cloud (native job alerts / talent community).
- Fix the UAT canonical defect and include the legacy slugs in the redirect map for BSC.

- Drop jQuery/Bootstrap/Owl/lightGallery/Magnific — rebuild modals/lightbox/accordion natively for Core Web Vitals and accessibility.

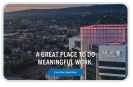

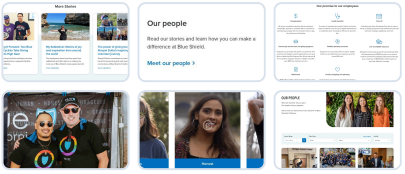

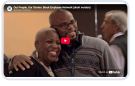

SOW Alignment

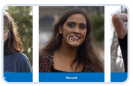

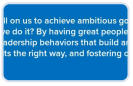

How the as-is analysis maps onto the Adobe SOW — DX for Blue Shield of California (executable 2026-09-24, V3).

Templates

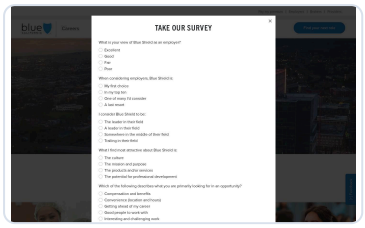

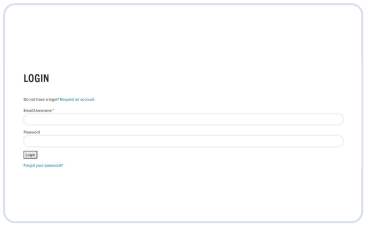

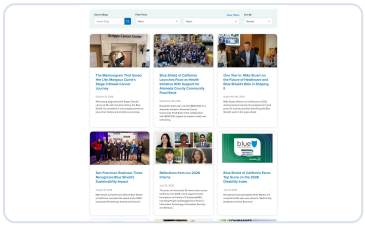

SOW template	Screenshots	Observed page types
Homepage		Careers Homepage — Careers homepage
Landing		Section Landing Page — 7 section landing pages
Content page	  	Story Listing & Search (Our People), Authors Listing, Text-only Content Page — Story listing/search, authors, Why Relocate
Blog article		Story Article (Our People blog post) — 22 of 77 Our People stories (SOW baseline; 55 excluded)
—		Account Form (login / registration / password) — Out of scope — SOW: account flows (login, registration, password) are handled by Oracle Recruiting Cloud
—		Retired URL (404 on live site — redirect only) — Excluded — 404 on live site; on BSC legacy exclusion list / redirect map

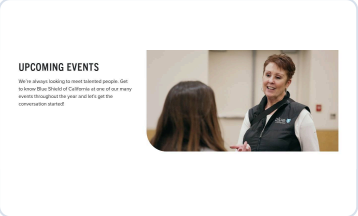

Blocks

Story Listing (filters, sort, paging)	custom	listing, search results	 Story Listing — search, filters, sort, pagination	18
Total (17 blocks, 12 core)				**178**

Removed from scope

Screenshot	Item	Basis	Hours
not a visible component	ORC featured / latest jobs widget	Removed on request (optional); SOW: no backend API integrations	16
not a visible component	ORC jobs proxy (edge worker / App Builder)	Only needed for the widget; SOW: backend API / middleware out of scope	16
not a visible component	Form submission handling (poll / alerts)	SOW: Web Forms integrations with server-side calls not included	8
	Feedback poll (block + iPR poll replacement)	SOW: Web Forms with server-side calls not included	22
no live instance	Job alerts / talent community (block + integration)	SOW: jobs funnel deep-links to Oracle Recruiting Cloud, which provides native job alerts	18
	Account forms + iPR account decommission	SOW: account flows (login, registration, password) out of scope	18
	news.blueshieldca.com feed integration	SOW: integration with any external solution not listed — 39 entries migrated as static listing rows instead	12
not a visible component	Google Analytics 4 tagging	SOW: GA4 and GTM out of scope — replaced by Adobe CJA tagging (§5)	8
not a visible component	Edge-side geolocation routing	Removed on request — listed as an SOW technical assumption, but no geolocation logic exists on careers.blueshieldca.com and CDN config is BSC-owned	6

Screenshot	Item	Basis	Hours
not a visible component	Stellarus & Ascendiun cover pages + brand theming	Removed on request — SOW lists both cover pages; the repoless multi-site repo stays in §1, so re-adding them is a change request of 8 h pages + 8 h theming	16
not a visible component	Security review	SOW: security / penetration testing done by the customer	4
not a visible component	Monitoring / alerting	Not in SOW — built-in RUM only	4
	Events listing block	Page is empty today; SOW migrates content as-is	6

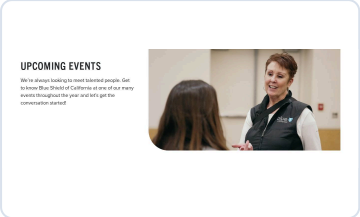

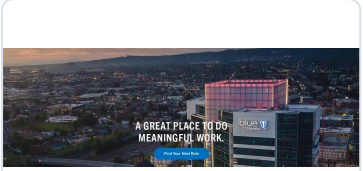

Discrepancies

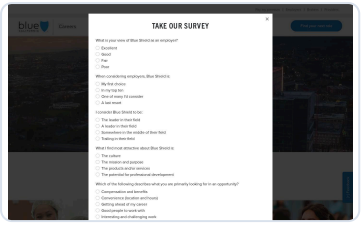

Topic	Finding	Action
ATS wording	ATS confirmed as Oracle Recruiting Cloud (ecge.fa.us2.oraclecloud.com, CX_1003). The SOW text still names Workday for deep-links and account flows.	Update the SOW wording to Oracle Recruiting Cloud (no effort change); confirm the deep-link URL patterns for launch.
Page baseline	Estimate uses the SOW baseline of 22 blog articles. The live site has 77 stories, so 55 are excluded and redirected to the Our People listing. The SOW also lists 61 content pages, but only 4 content and 7 landing pages exist on the live site.	BSC to name the 22 stories to migrate (or the 55 to exclude) and confirm what the 61 content pages refer to; migrating more than 22 stories is a change request (≈0.25 h per extra story for import, remediation and validation).
Analytics	Live site uses GA4 (G-2ZH0HXENHZ). SOW uses Adobe Customer Journey Analytics page tagging.	Confirm the CJA data collection setup (Web SDK datastream, schema) exists and BSC provides credentials.
Source control	SOW lists GitLab as the customer source-control system, but pre-production setup and EDS/DA.live require a GitHub repo.	Confirm GitHub for the EDS code repo.

Topic	Finding	Action
Wording	SOW technical assumption says “no DA.live”, while DA.live authoring is the chosen platform elsewhere in the SOW.	Correct the SOW wording.
Feedback poll & job-alerts script	Both exist on every live page but are out of SOW scope.	Confirm they are dropped at launch (Qualtrics accommodation link stays as a plain link).

Needs Review

Items that could not be confirmed from the public site, or where the live site and the SOW disagree. Resolve them at the Design & Plan program-review checkpoint.

Screenshot	Item	Reason / action
no live instance	Job Alerts / Talent Community Sign-up	Script present but endpoint (/alerts) returns 404 — confirm whether job alerts should be rebuilt or delegated to Oracle Recruiting Cloud.
	Events Listing	Page currently has no events — confirm whether an events list is needed at launch.
	SOW: ATS wording	ATS confirmed as Oracle Recruiting Cloud (ecge.fa.us2.oraclecloud.com, CX_1003). The SOW text still names Workday for deep-links and account flows. → Update the SOW wording to Oracle Recruiting Cloud (no effort change); confirm the deep-link URL patterns for launch.
	SOW: Page baseline	Estimate uses the SOW baseline of 22 blog articles. The live site has 77 stories, so 55 are excluded and redirected to the Our People listing. The SOW also lists 61 content pages, but only 4 content and 7 landing pages exist on the live site. → BSC to name the 22 stories to migrate (or the 55 to exclude) and confirm what the 61 content pages refer to; migrating more than 22 stories is a change request (≈0.25 h per extra story for import, remediation and validation).
not visual (SOW / configuration item)	SOW: Analytics	Live site uses GA4 (G-2ZH0HXENHZ). SOW uses Adobe Customer Journey Analytics page tagging. → Confirm the CJA data collection setup (Web SDK datastream, schema) exists and BSC provides credentials.
not visual (SOW / configuration item)	SOW: Source control	SOW lists GitLab as the customer source-control system, but pre-production setup and EDS/DA.live require a GitHub repo. → Confirm GitHub for the EDS code repo.

Screenshot	Item	Reason / action
not visual (SOW / configuration item)	SOW: Wording	SOW technical assumption says “no DA.live”, while DA.live authoring is the chosen platform elsewhere in the SOW. → Correct the SOW wording.
	SOW: Feedback poll & job-alerts script	Both exist on every live page but are out of SOW scope. → Confirm they are dropped at launch (Qualtrics accommodation link stays as a plain link).
not visual (page <head> markup)	Canonical defect	10 pages declare canonicals on uat.bsccareers.iprsoftware.com — confirm the legacy slugs for BSC’s 301 redirects.

Blue Shield Foundation People and Engagement Corporate Citizenship

FINDING PURPOSE AND PASSION AT WORK

March 11, 2021

Apana Lei
Program Operations Program Manager, Blue Shield of California Foundation

Share

I work for Blue Shield of California Foundation, an independent, nonprofit organization that is funded entirely by contributions from Blue Shield of California. The Company gifts between $30-$40 million annually to the Foundation for grantmaking to help us achieve our Mission: "To build lasting and equitable solutions that make California the healthiest state and end domestic violence."

I spent 20 years in the for-profit industry, and I was focused on having a successful career and earning a good income. But eventually I came to realize that I wasn't fulfilled by all of the hard work I was putting in and none of that work was making a real difference in my community. So, I left my job, took a summer off to help a friend open a martial arts studio, and gave myself space to reflect on my career trajectory. Most of my friends worked in philanthropy, so I examined my options to move into the nonprofit sector. I'd been an active member of a local Hawaiian cultural center, and I wanted a career that inspired that same passion and meaning for me.

Maybe this seed was planted in me by watching my mother and my activist sister fight for what they believed in while helping those who experienced social inequities. My father passed away when I was five years old and my mom had the difficult job of raising three young children on her own with no experience in the workforce. It was a struggle, but she had a lot of help from friends and family to get her on her feet. And then, once she could give back, she did. She always fought for what she felt was right. If she felt like others were being mistreated, she'd be the first one to intervene. Her goal was to help people who either didn't have a voice, or who didn't have the means to support themselves.

I landed at the Foundation in 2005. Blue Shield not only provides the funding we need for our grantees, but they also make sure we

work they do at Blue Shield. Under Kathryn Qin’s leadership, Kevin and his team exemplify how actuarial analysis isn’t just about numbers — it’s about the lives and well-being of countless individuals. Continue reading to discover the stories behine the data revealing what it’s like to work at Blue Shield as an actuarial analyst and the unique challenges and rewards that come with the role.

What first brought you to Blue Shield?

Taylor: I became interested in Blue Shield in college. I was part of an actuarial organization called Gamma Iota Sigma, and Blue Shield contacted them looking for interns. The more I looked into the opportunity, the more it really attracted me. Blue Shield’s mission statement and two percent pledge made me think it would be a meaningful place to work.

Kevin: I am particularly proud that Blue Shield is a nonprofit. Working on products, I can see how my daily work trickles down into living and embodying our mission. We are trying to create a product that is affordable for our family and friends. In the health insurance industry, we can often be seen as the bad guys, but here I feel like we’re doing something good in the sense that we’re not seeking to profit from a necessity.

Taylor Grimes

How long have you been with Blue Shield?

Taylor: Since the summer of 2022, so approaching two years.

Kevin: Four years now, coming up on five in July.

Kevin, you’ll be eligible for your sabbatical soon. Any thoughts on how you’ll be spending your four weeks of paid time off?

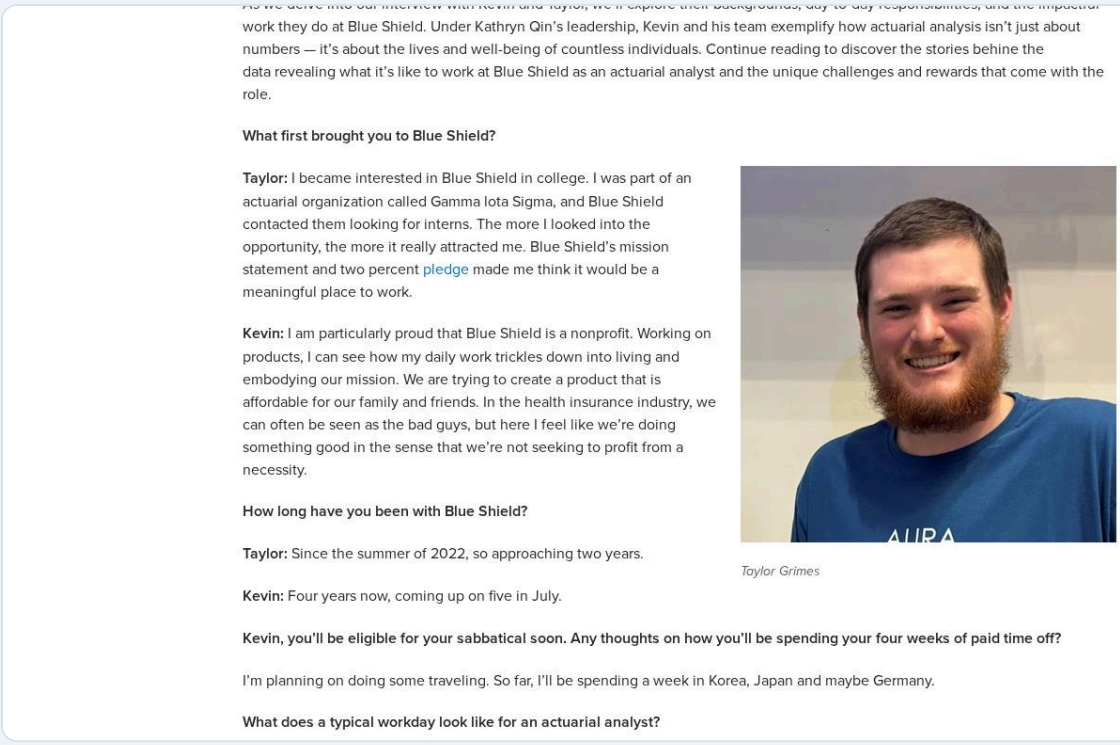

I’m planning on doing some traveling. So far, I’ll be spending a week in Korea, Japan and maybe Germany.

What does a typical workday look like for an actuarial analyst?

The Internship Program is a ten-week opportunity to provide undergraduate and graduate students with real-life work experiences while learning what a career at Blue Shield of California offers. Interns work on real-world projects and initiatives while being immersed in many aspects of the business. From interacting with senior leadership to development through hands-on experience, interns will build a better understanding of the diversity and complexities of working in the dynamic world of health insurance and health care.

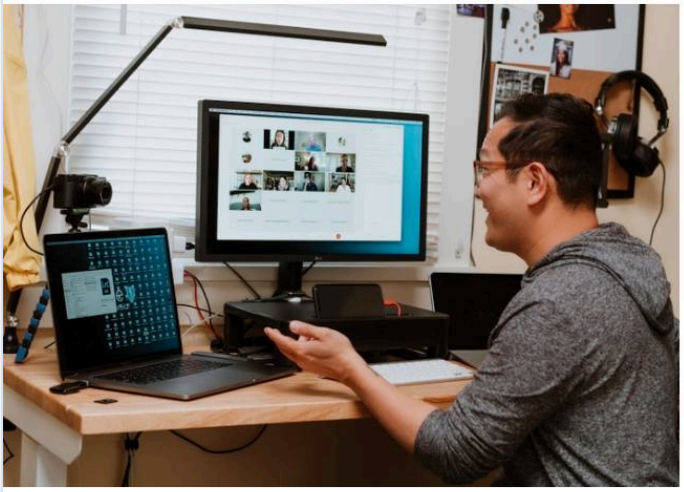

As an intern in our program, you will:

- Gain exposure to our mission and enterprise goals while having a curriculum based on our leadership mode
- Build meaningful relationships and connections through team building and volunteering in the community
- Get hands-on experience with real work projects and work on challenging department assignments
- build meaningful relationships and connections through team building and volunteer experiences
- Partner with a mentor who will help guide you through the program and future career planning

View our current internship opportunities

Connecting with purpose

Our workplace model is designed around intentional in-person interaction, collaboration, connection, creativity and flexibility. For most teams, this means coming into the office two days each week. For employees with medical conditions that may impact their ability to work in-office, we are committed to engaging in an interactive process and providing reasonable accommodations to ensure their work environment is conducive to their success and well-being.

Our hybrid strategy aligns with our core values

Human: We know that flexibility is a key component to what makes us a great place to do meaningful work.

Honest: We know that intentional cross-collaboration ensures we can provide the best service for our members.

Courageous: Our mission remains at the center of all we do.

Block — Global Footer (fair hiring, links, social)

Medium	1
Complexity	Variations
92	**footer**
Pages	SOW block

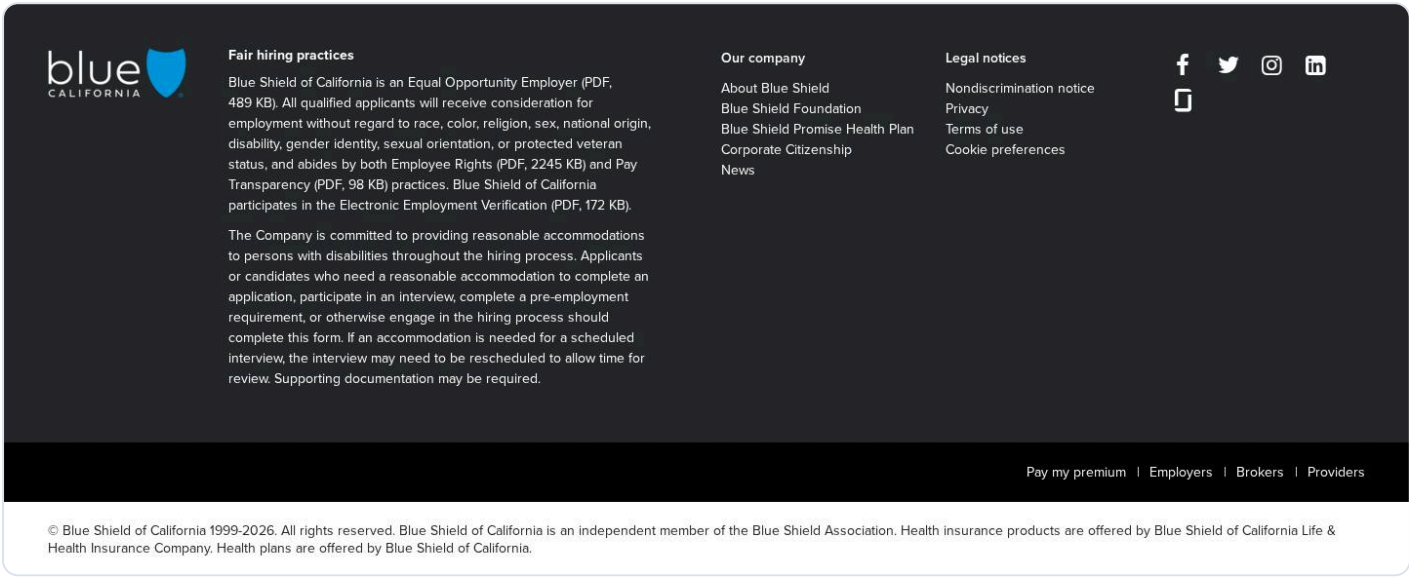

SOW target footer (core)

Estimated in §3 as **Footer** (core, 10h for all 1 options).

As-is behaviour

“Fair hiring practices” legal copy with 4 PDF links and Qualtrics accommodation-form link, two link columns (Our company, Legal notices incl. OneTrust “Cookie preferences” trigger), 5 social icons (incl. Glassdoor), bottom utility nav and copyright.

Block screenshot

Live site: / · desktop 1440px · captured 2026-10-23

Variations (1)

default (92 pages)

Single variation — same as the block screenshot above.

Functionality

- Legal copy with PDF links (EEO, Employee Rights, Pay Transparency, E-Verify)
- Reasonable-accommodation link → Qualtrics form
- Our company / Legal notices link columns
- Cookie preferences opens the OneTrust preference centre
- Social icons: Facebook, X, Instagram, LinkedIn, Glassdoor
- Bottom utility nav + copyright

Acceptance criteria

- ☐ Cookie preferences opens OneTrust
- ☐ All PDFs open with size labels preserved

How to verify

- Click Cookie preferences; verify each footer link

Block — Image Gallery with Lightbox

Medium	2
Complexity	Variations

7	modal + gallery
Pages	SOW block

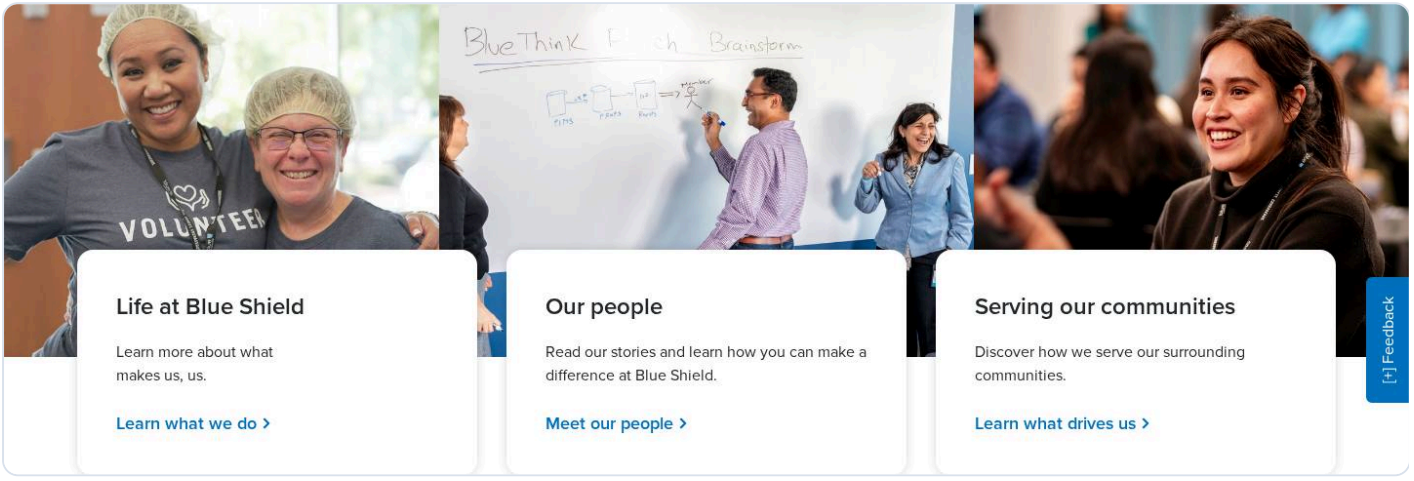

SOW target gallery (custom) + modal

Estimated in §3 as **Modal** (core, 6h for all 1 options) and **Image Gallery (lightbox)** (custom, 12h for all 2 options).

As-is behaviour

3-up image row (homegallery) whose images open full-size in a lightbox (lightGallery/Magnific Popup today); on the homepage it is paired with 3 feature tiles. Replace the jQuery plugins with a lightweight native dialog.

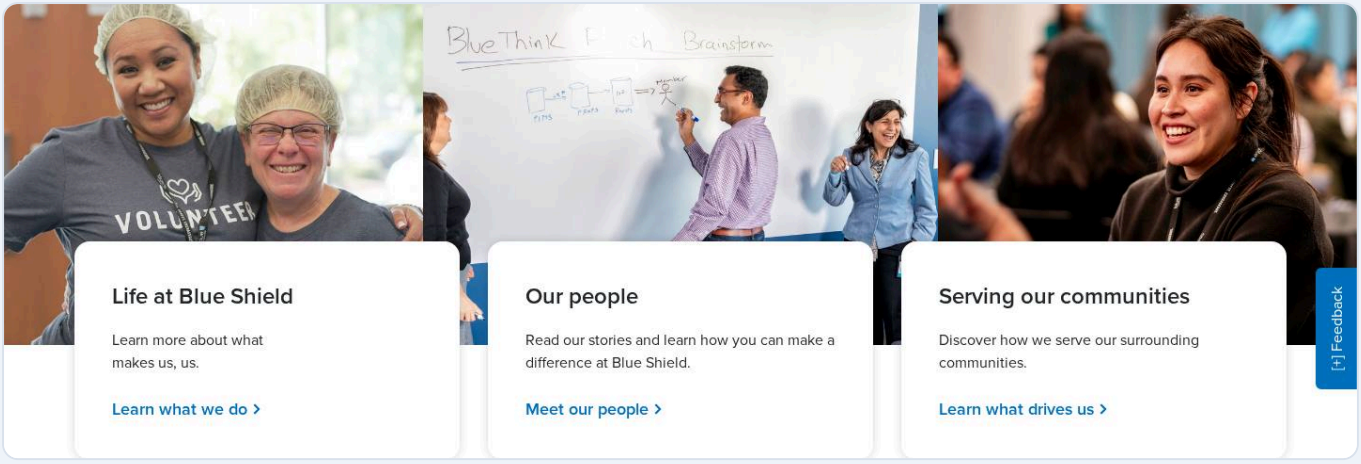

Block screenshot

Live site: / · desktop 1440px · captured 2026-10-23

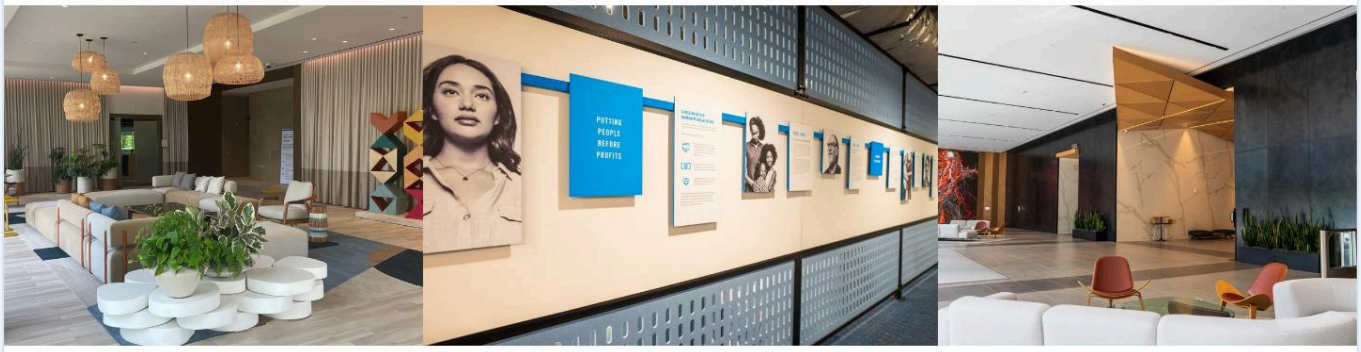

Variations (2)

gallery + feature tiles (home) (1 pages)

Live site: / · desktop 1440px · captured 2026-10-23

standalone 3-up (6 pages)

Live site: /total-rewards · desktop 1440px · captured 2026-10-23

Functionality

- 3-up responsive image row
- Click opens lightbox with prev/next
- Keyboard + Esc support

Acceptance criteria

- ☐ Lightbox traps focus, closes on Esc
- ☐ No jQuery

How to verify

- Open gallery on homepage and /total-rewards

Observed behavior

Gallery images link to /_gallery/get_file/?file_id=…; clicking opens them in a lightbox (lightGallery / Magnific Popup).

States: grid · lightbox open · next/prev

Block — Global Header & Navigation (desktop nav / mobile off-canvas)

High	2
Complexity	Variations

92	header
Pages	SOW block

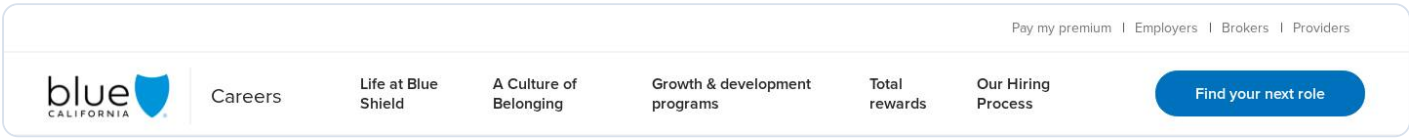

SOW target header (core)

Estimated in §3 as **Header** (core, 18h for all 2 options).

As-is behaviour

Desktop: utility bar (Pay my premium, Employers, Brokers, Providers → blueshieldca.com), logo + “Careers” wordmark, horizontal primary nav (Life at Blue Shield, A Culture of Belonging, Growth & development programs, Total rewards, Our Hiring Process) with a “Life at Blue Shield” dropdown (Our people, Our workplace model, Awards & recognition) and a “Find your next role” button to Oracle Recruiting Cloud. Mobile: the nav collapses to a hamburger that opens an off-canvas “Menu” panel with the same links, the sub-items indented, and a full-width “Find your next role” button.

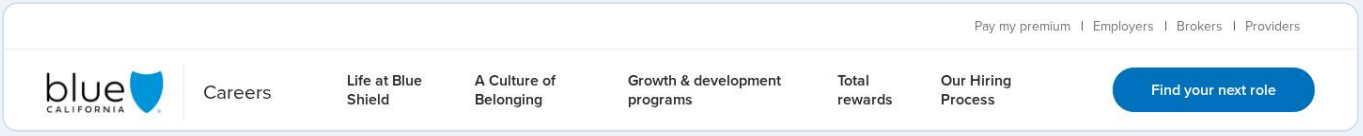

Block screenshot

Live site: / · desktop 1440px · captured 2026-10-23

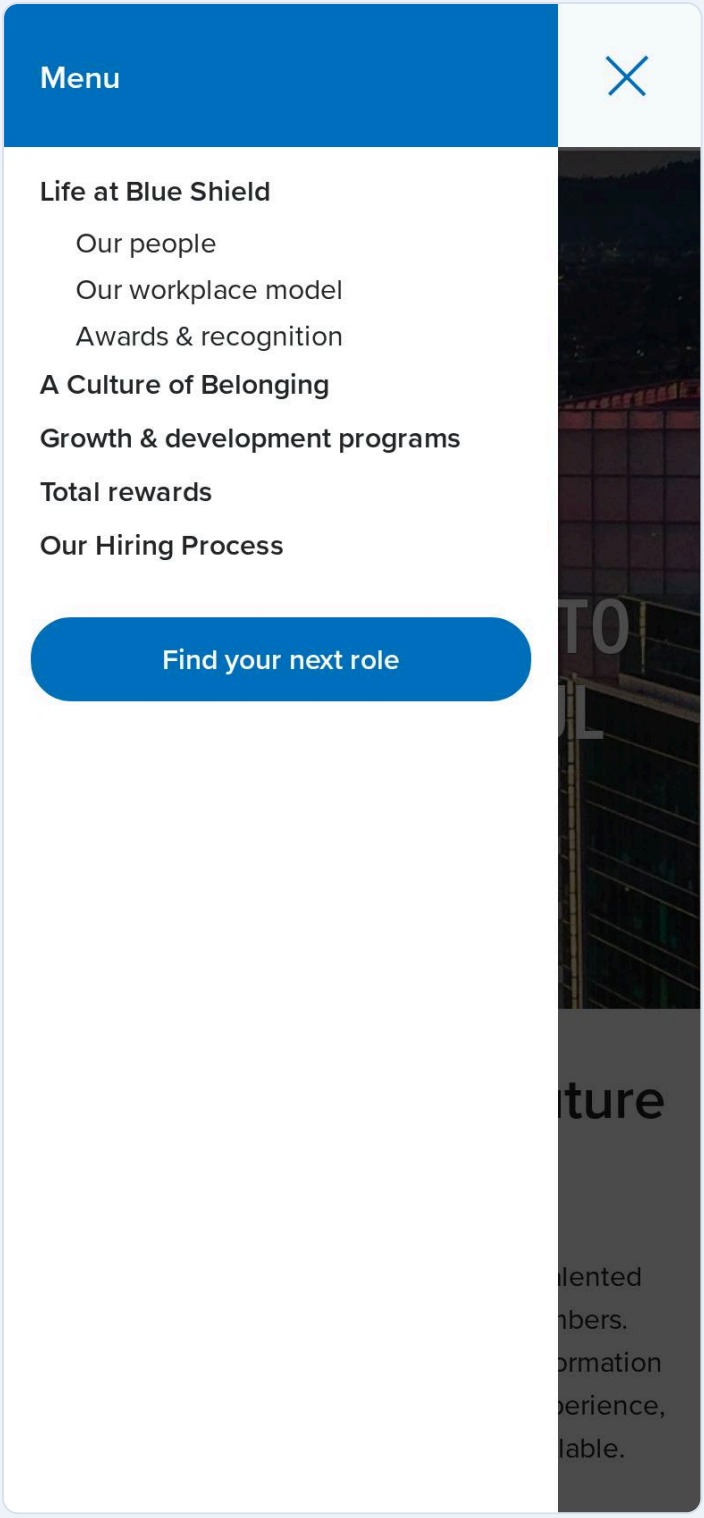

Variations (2)

desktop: utility bar + horizontal nav + CTA (92 pages)

Live site: / · desktop 1440px · captured 2026-10-23

mobile: hamburger off-canvas menu (92 pages)

Live site: / · mobile 390px · captured 2026-10-23

Functionality

- Utility links bar (4 links to blueshieldca.com)
- Desktop: horizontal primary nav with “Life at Blue Shield” dropdown (ipr_dropdown_2.js)
- Mobile: hamburger opens an off-canvas panel with close (×) button
- Life at Blue Shield sub-items (Our people, Our workplace model, Awards & recognition)

- Primary links: Culture of Belonging, Growth & development, Total rewards, Our Hiring Process
- Primary CTA “Find your next role” → Oracle Recruiting Cloud CX_1003
- Skip-navigation link to #site_content

Acceptance criteria

- ☐ Desktop dropdown opens by click/keyboard with aria-expanded
- ☐ Mobile menu opens/closes by click and keyboard (Esc closes, focus trapped)
- ☐ Desktop and mobile menus come from one nav fragment

How to verify

- Desktop: open the Life at Blue Shield dropdown and tab through all links
- Mobile: open the menu, tab through all links, press Esc

Observed behavior

Desktop (1440px): utility bar, logo, horizontal primary nav and a “Find your next role” button; “Life at Blue Shield” carries a dropdown (ipr_dropdown_2.js) that does not open on hover. Mobile (390px): the nav collapses to a hamburger (“Open Navigation Menu”) that opens an off-canvas “Menu” panel with the same links (sub-items indented), a close (×) button and a full-width “Find your next role” button. That button leaves the site for Oracle Recruiting Cloud.

States: desktop bar · desktop dropdown open · mobile closed · mobile menu open · external hand-off

Block — Homepage Hero (image + headline + CTA)

Medium	1
Complexity	Variations
1	**hero**
Pages	SOW block

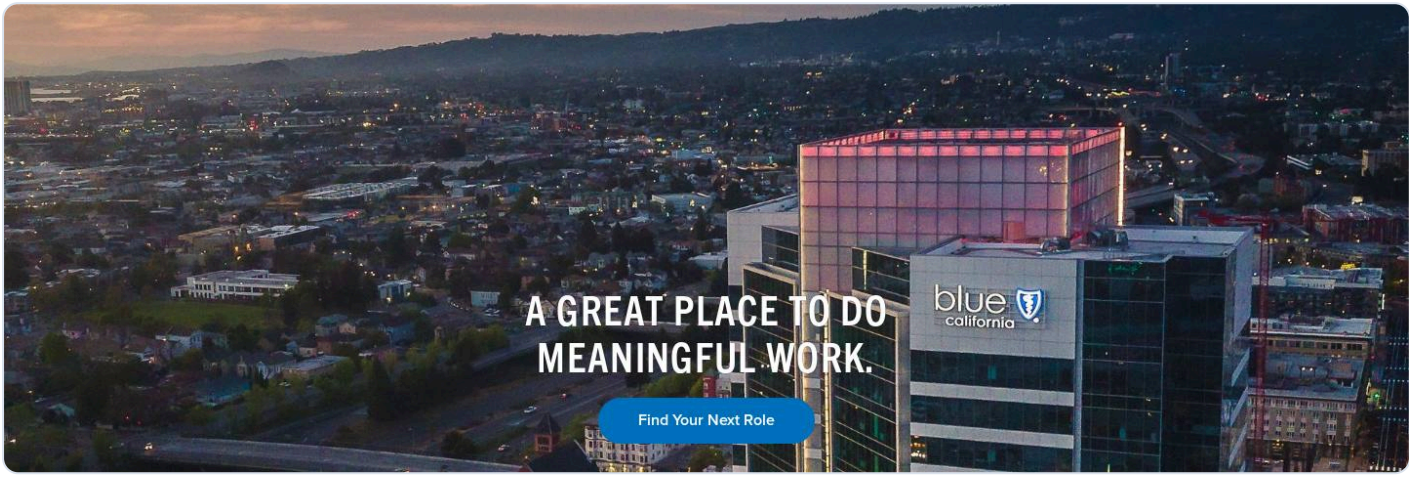

SOW target hero · option home

Estimated in §3 as **Hero** (core, 14h for all 3 options).

As-is behaviour

Full-bleed hero media slot (hero-media supports image or video items), overlaid H2 headline and “Find Your Next Role” button to Oracle Recruiting Cloud; LCP element of the site.

Block screenshot

Live site: / · desktop 1440px · captured 2026-10-23

Variations (1)

image hero with CTA (1 pages)

Single variation — same as the block screenshot above.

Functionality

- Full-bleed image (media slot can carry video)
- Headline overlay
- CTA → ORC job search

Acceptance criteria

- ☐ LCP < 2.5s
- ☐ Text legible over image on mobile

How to verify

- Lighthouse mobile run on homepage

Used in templates

Careers Homepage

Evidence: Live DOM + automated catalog, 2026-10-23

Block — Icon Tiles (benefits / hiring steps)

Low	2
Complexity	Variations
2	**cards**
Pages	SOW block

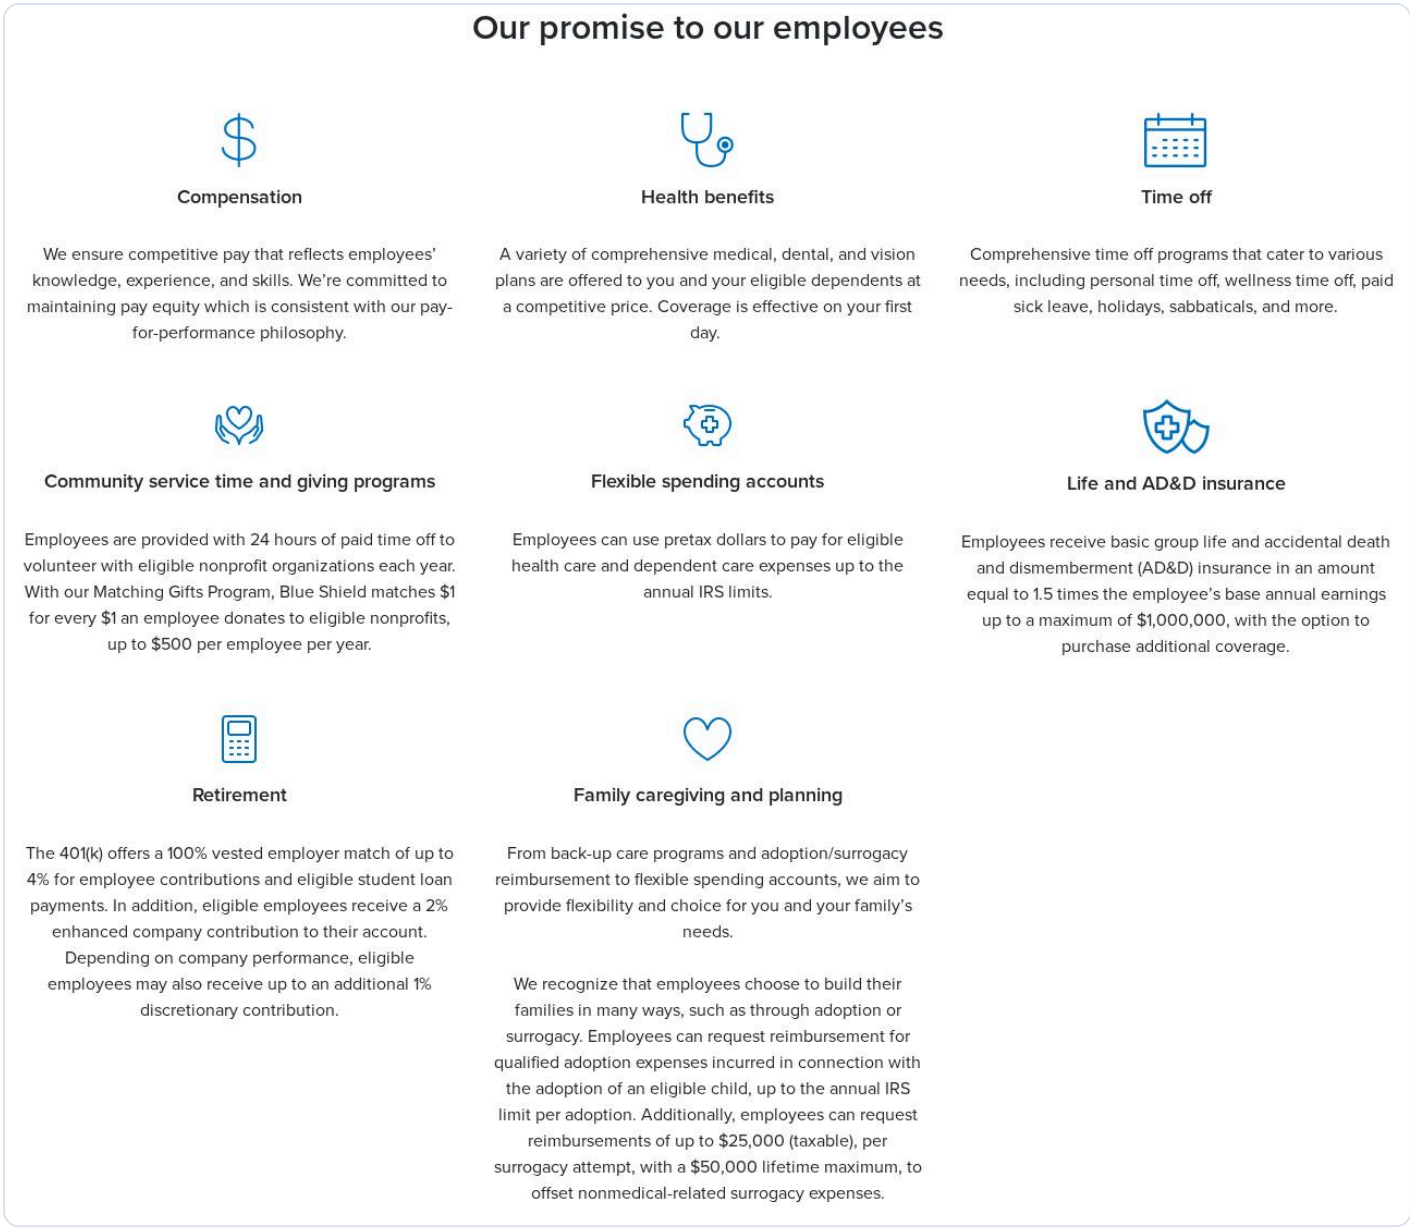

SOW target cards · option icon

Estimated in §3 as **Cards** (core, 22h for all 7 options).

As-is behaviour

Icon + heading + description grid; used for Total Rewards benefits (16 tiles across 3 sections) and the 6-step hiring process.

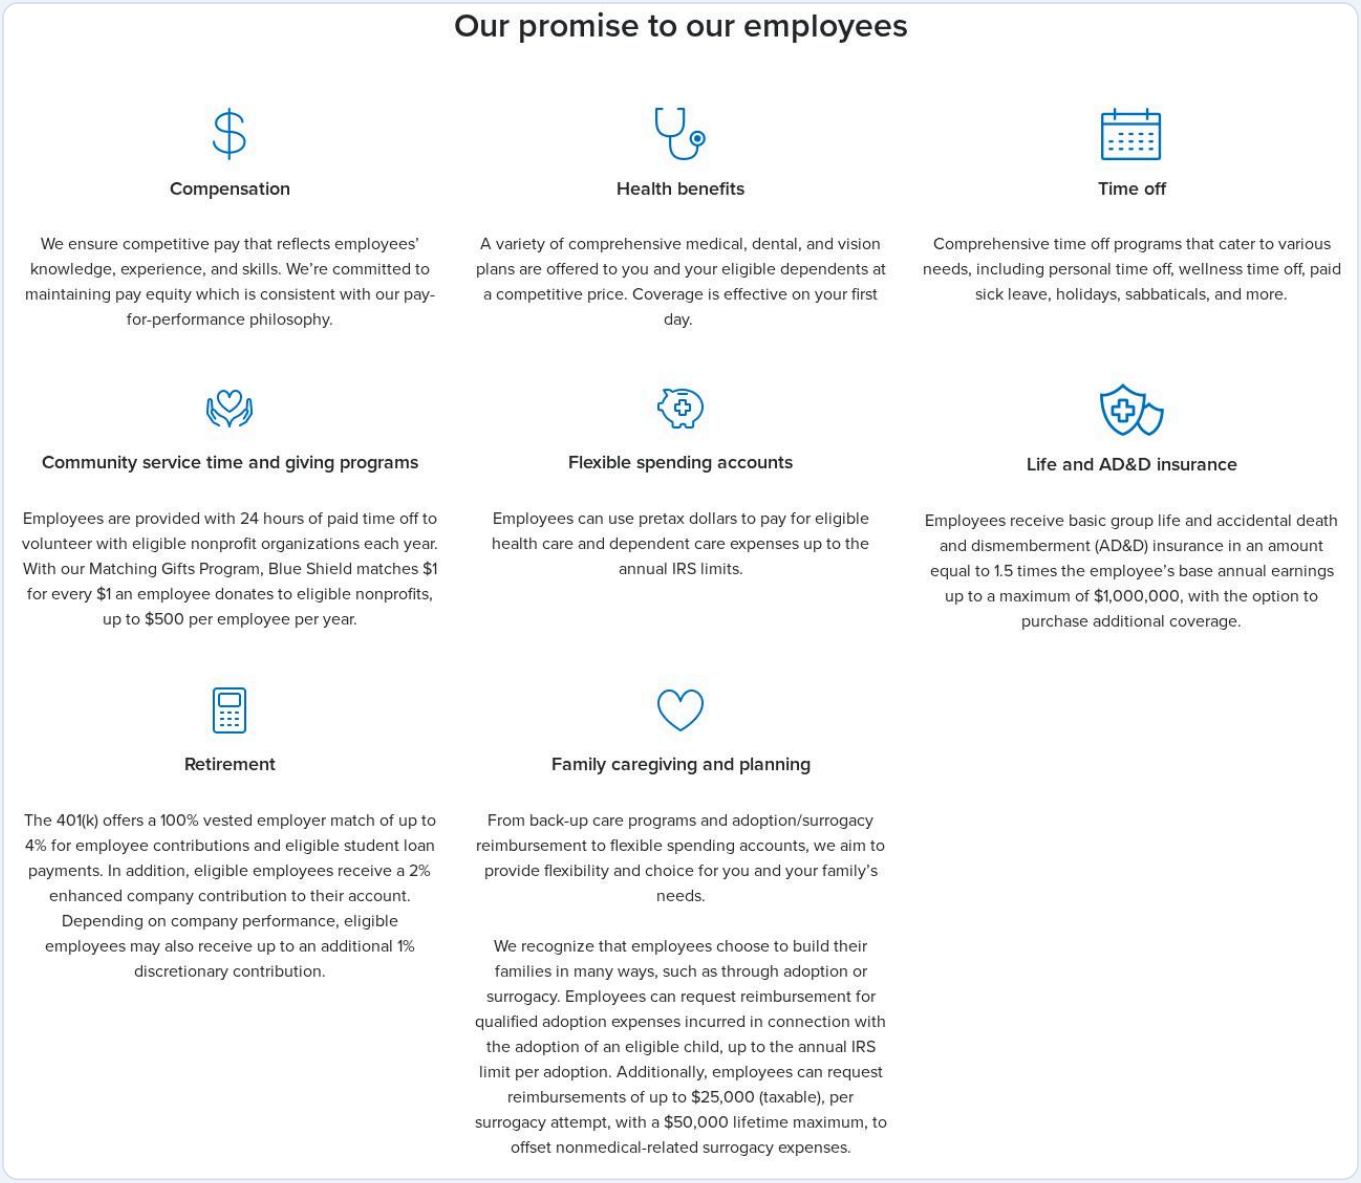

Block screenshot

Live site: /total-rewards · desktop 1440px · captured 2026-10-23

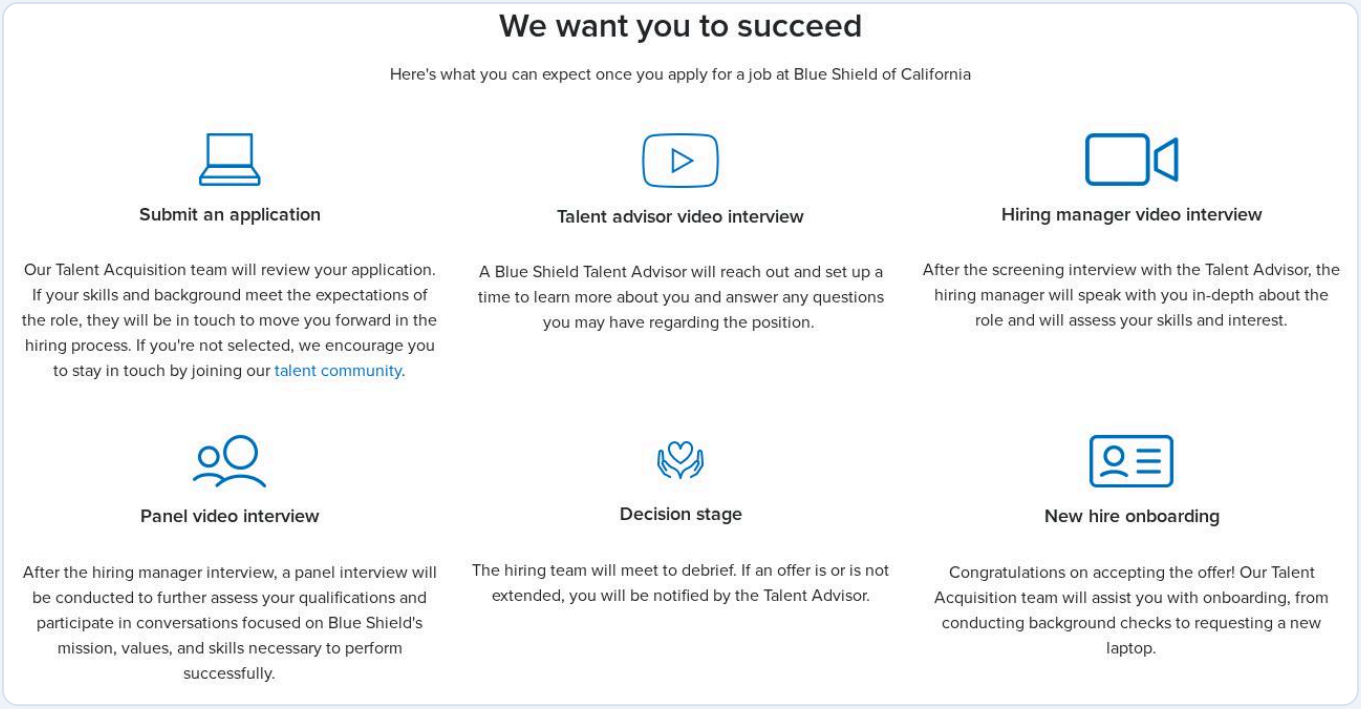

Variations (2)

benefit tiles (1 pages)

Live site: /total-rewards · desktop 1440px · captured 2026-10-23

process steps (1 pages)

Live site: /how-to-get-hired · desktop 1440px · captured 2026-10-23

Functionality

- Icon, heading, rich description
- 2–4 column responsive grid

Acceptance criteria

- ☐ Icons have empty alt when decorative

How to verify

- /total-rewards, /how-to-get-hired

Used in templates

Section Landing Page

Evidence: Live DOM + automated catalog, 2026-10-23

Block — Job Alerts / Talent Community Sign-up

Medium	1
Complexity	Variations
0	**–**
Pages	SOW block

SOW target OUT OF SCOPE — SOW: jobs funnel deep-links to Oracle Recruiting Cloud (native job alerts)

⚠ **Needs review** Script present but endpoint (/alerts) returns 404 — confirm whether job alerts should be rebuilt or delegated to Oracle Recruiting Cloud.

As-is behaviour

alertsForm.js still loads on every page (AJAX-loads an iPR alerts form) but /alerts returns 404 — feature looks discontinued. Rebuild only if required; ORC offers native job alerts / talent community.

Block screenshot

No live instance — /alerts returns HTTP 404; the alerts form is no longer rendered on any page.

Variations (1)

default (0 pages)

Single variation — same as the block screenshot above.

Functionality

- Email sign-up
- Category preferences

Acceptance criteria

- ☐ Confirm scope

How to verify

- Confirm with Blue Shield

Used in templates

Evidence: Live DOM + automated catalog, 2026-10-23

Block — Page Header (title + subtitle + hero image)

Low	2
Complexity	Variations
14	**hero**
Pages	SOW block

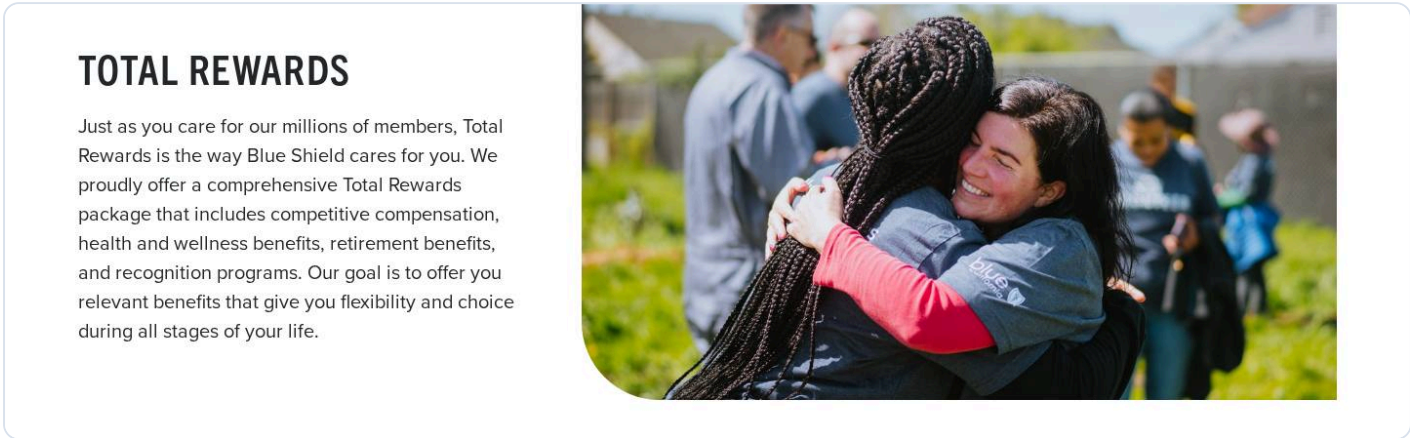

SOW target hero · options page / title only

Estimated in §3 as **Hero** (core, 14h for all 3 options).

As-is behaviour

Standard page header used on all non-article pages; “no_hero” variant shows the title only.

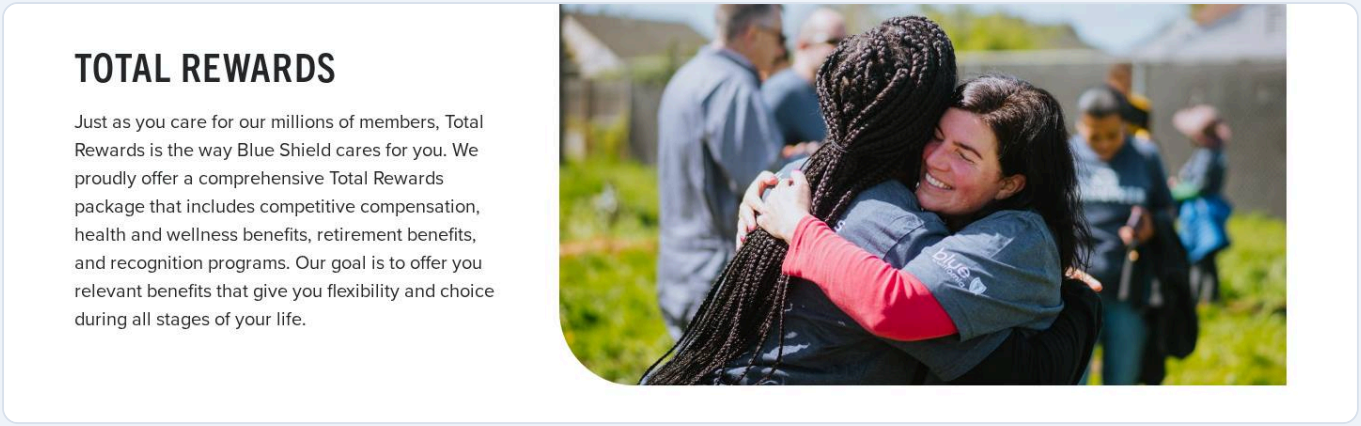

Block screenshot

Live site: /total-rewards · desktop 1440px · captured 2026-10-23

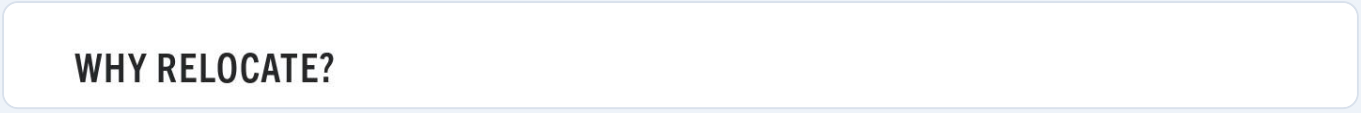

Variations (2)

with hero image (10 pages)

Live site: /total-rewards · desktop 1440px · captured 2026-10-23

title only (no_hero) (4 pages)

Live site: /why-relocate · desktop 1440px · captured 2026-10-23

Functionality

- H1 + subtitle
- Hero image (figure)
- Title-only variant

Acceptance criteria

- ☐ Matches source spacing at all breakpoints

How to verify

- Compare /total-rewards and /why-relocate

Used in templates

Evidence: Live DOM + automated catalog, 2026-10-23

Block — Feedback Poll (modal survey)

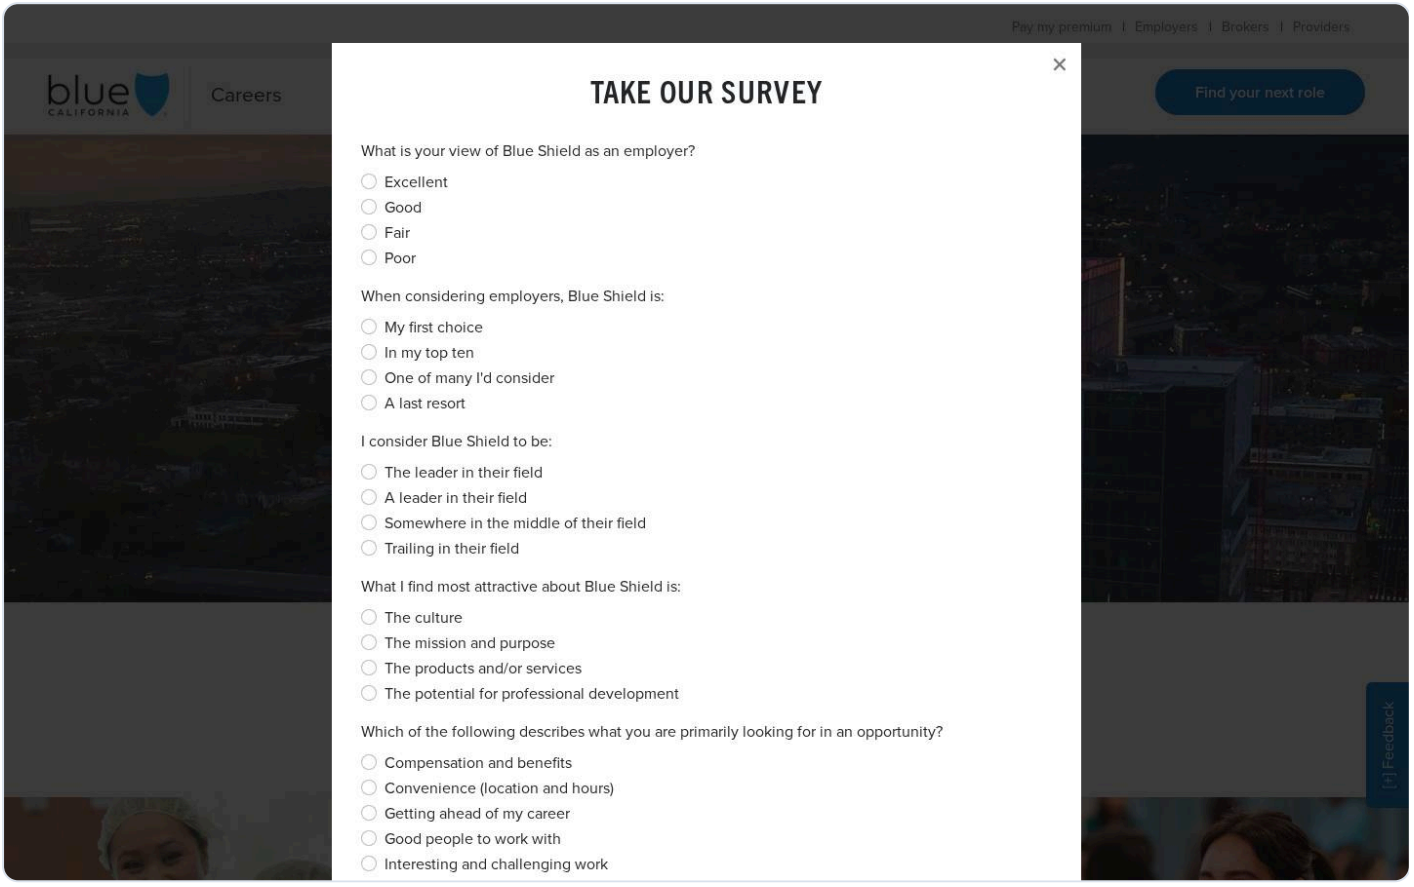

Medium	1
Complexity	Variations
92	**—**
Pages	SOW block

SOW target OUT OF SCOPE — SOW: no web forms with server-side calls

As-is behaviour

Global “[+] Feedback” trigger opens a 6-question radio poll (employer perception) posting to the iPR poll service and showing results charts (/poll_charts/). Needs a new submission target.

Block screenshot

Live site: / · desktop 1440px · captured 2026-10-23

Variations (1)

default (92 pages)

Single variation — same as the block screenshot above.

Functionality

- Global trigger in footer area
- 6 radio questions (≈30 options)
- Submit + thank-you / results state
- Validation alert

Acceptance criteria

- ☐ Submission stored in the chosen target
- ☐ Modal accessible

How to verify

- Open Feedback, submit, check target

Observed behavior

“[+] Feedback” (footer-feedback-link) reveals a hidden #poll block with 6 radio questions; submit validates (poll_alert), then shows a success state and results charts from /poll_charts/.

States: hidden · open · validation error · success / results

Used in templates

Block — Promo / CTA Banner

Low	2
Complexity	Variations
2	**banner**
Pages	SOW block

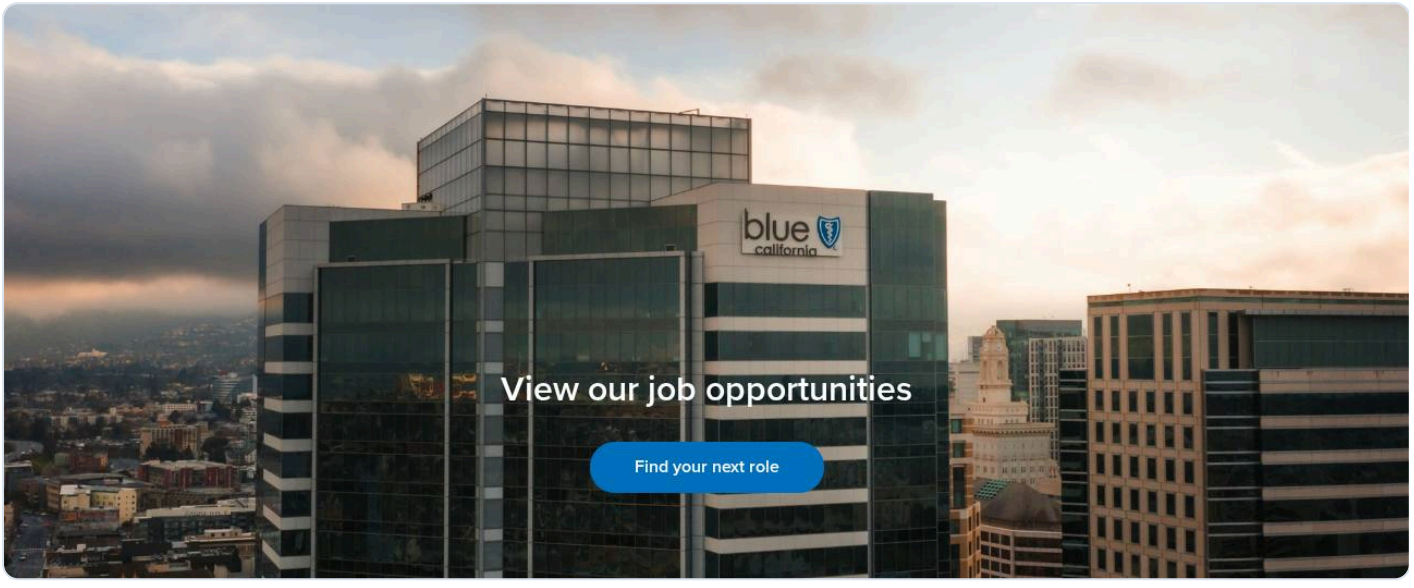

SOW target banner · options image CTA / locations

Estimated in §3 as **Banner** (custom, 10h for all 3 options).

As-is behaviour

Image + heading + button (“View our job opportunities”) and the homepage “Find Your Next Role” locations band (text + button over a static California office-locations map background image) — both deep link to Oracle Recruiting Cloud.

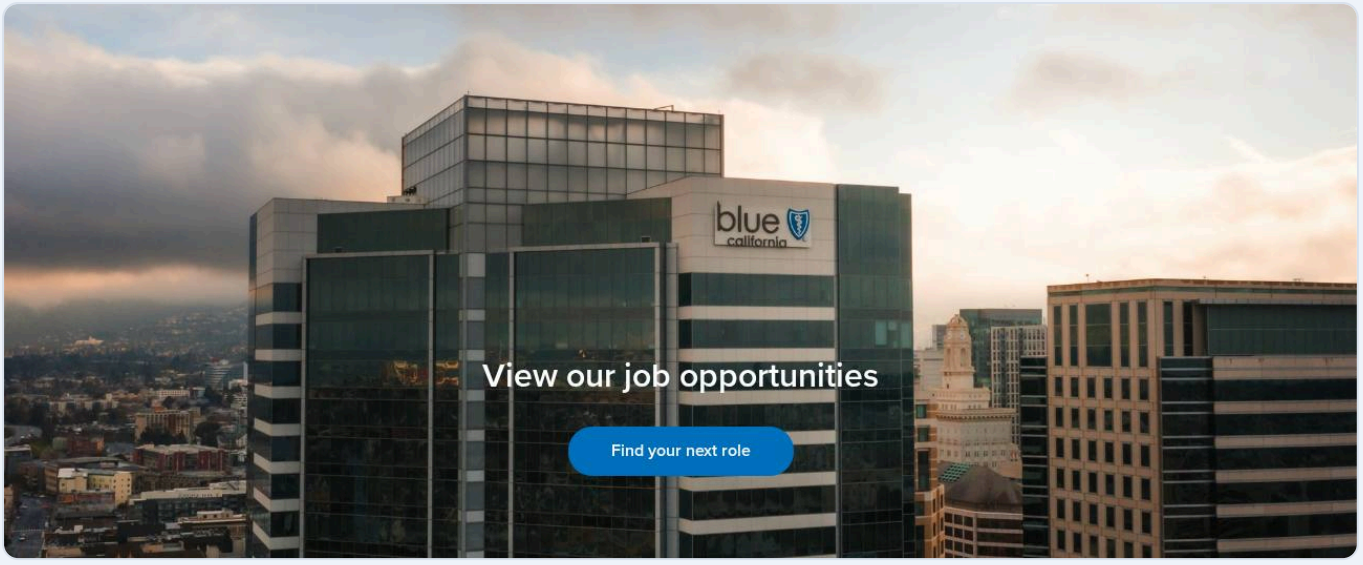

Block screenshot

Live site: /life-at-blue-shield · desktop 1440px · captured 2026-10-23

Variations (2)

image banner (1 pages)

Live site: /life-at-blue-shield · desktop 1440px · captured 2026-10-23

locations band (text over CA map image) (1 pages)

Live site: / · desktop 1440px · captured 2026-10-23

Functionality

- Background/side image
- Heading + body
- CTA button → ORC

Acceptance criteria

- ☐ CTA carries UTM

How to verify

- /life-at-blue-shield, homepage

Used in templates

Block — Employee Quote Tiles

Low	1
Complexity	Variations
1	**quote**
Pages	SOW block

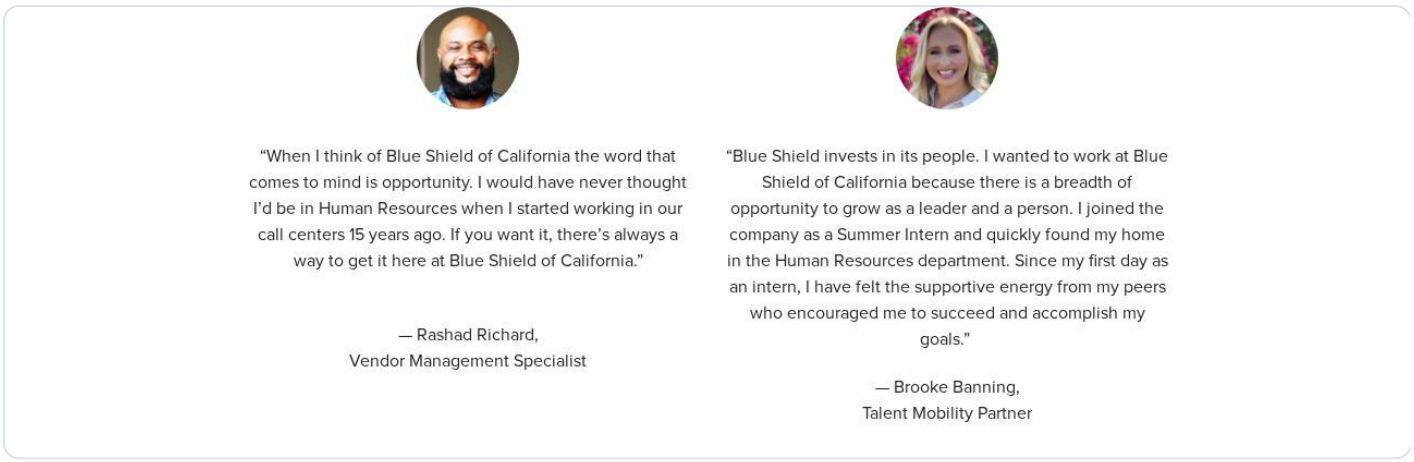

SOW target quote (core)

Estimated in §3 as **Quote** (core, 6h for all 1 options).

As-is behaviour

Photo + quotation + name/role (“Why work with us”). Note: source contains stray “google-site-verification” text inside a quote — clean in migration.

Block screenshot

Live site: / · desktop 1440px · captured 2026-10-23

Variations (1)

default (1 pages)

Single variation — same as the block screenshot above.

Functionality

- Portrait, quote, attribution

Acceptance criteria

- [ ] Stray verification text removed

How to verify

- Homepage Why work with us

Used in templates

Careers Homepage

Block — Content Section Styles (centered title, blue band, white text)

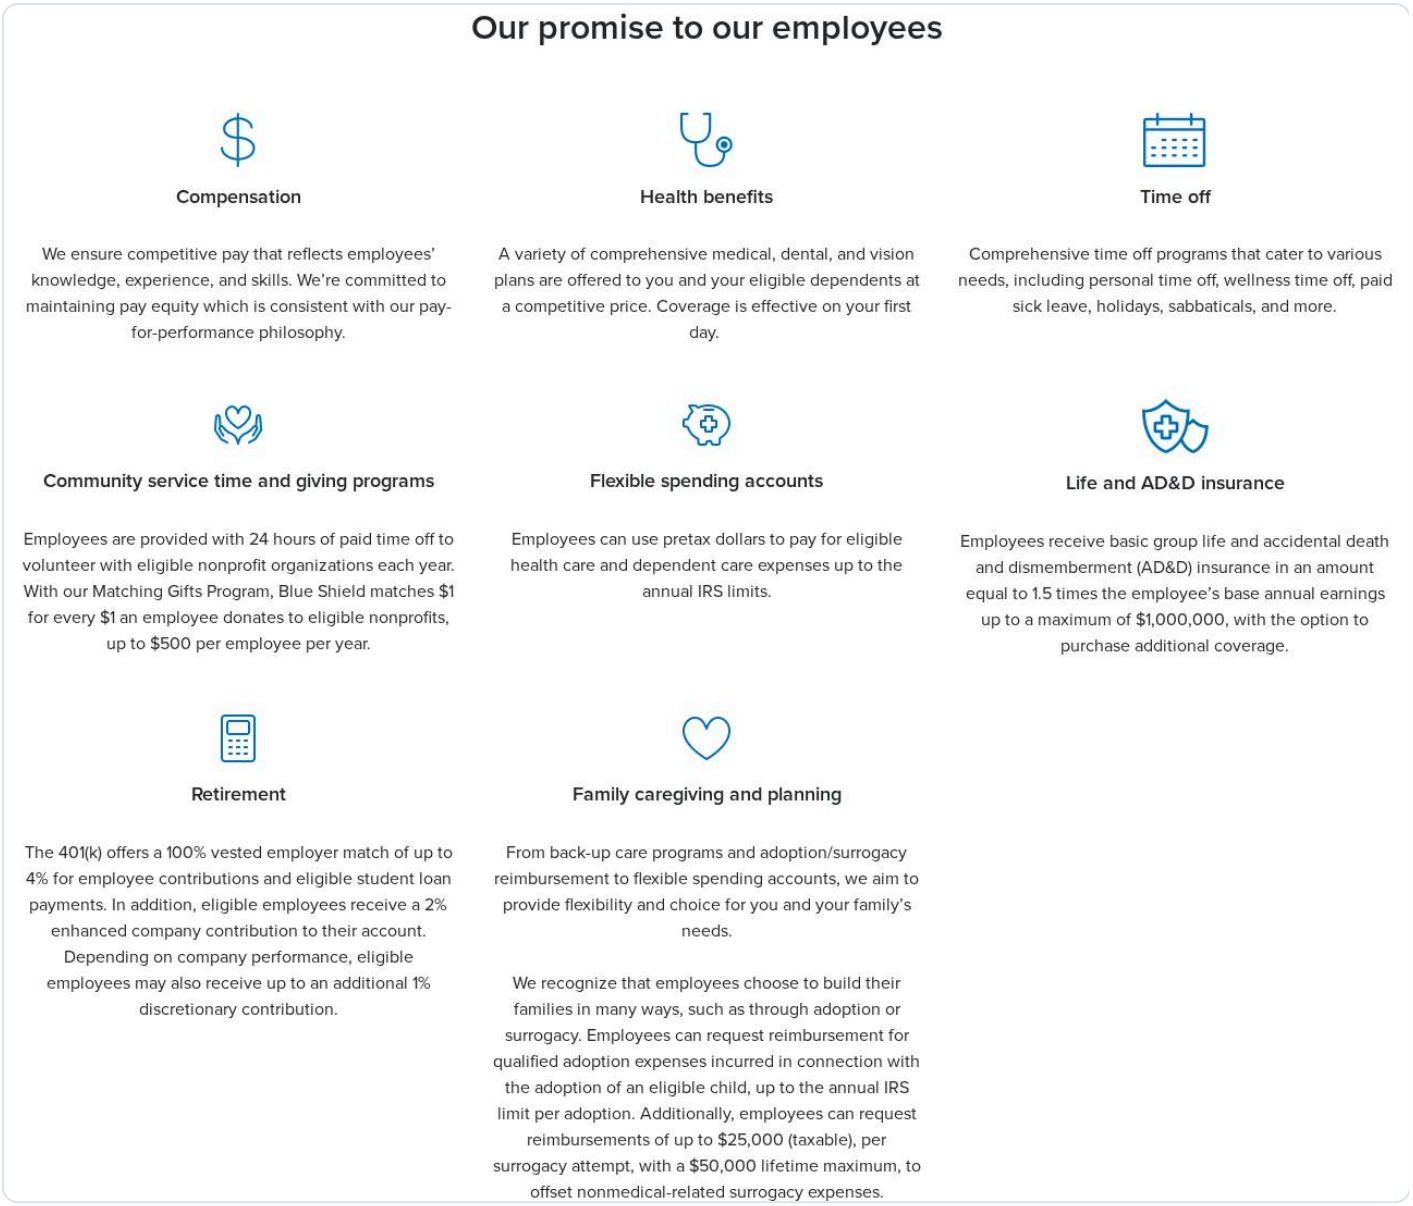

Low	1
Complexity	Variations
81	–
Pages	SOW block

SOW target section styles (core decoration, §1)

As-is behaviour

contentSection wrapper (centered H2), blue_bottom band (More Stories), white_text on image — implemented as section styles, not blocks.

Block screenshot

Live site: /total-rewards · desktop 1440px · cropped · captured 2026-10-23

Variations (1)

default (81 pages)

Single variation — same as the block screenshot above.

Functionality

- Centered section title
- Blue background band
- Inverse text section

Acceptance criteria

- ☐ Authorable via Section Metadata

How to verify

- Spot-check sections

Used in templates

Block — Social Share Buttons

Low Complexity	1 Variations
77 Pages	share SOW block

SOW target share (custom)

Estimated in §3 as **Social Share** (custom, 6h for all 1 options).

As-is behaviour

LinkedIn / Facebook / X share links using the page URL and title; no third-party SDK.

Block screenshot

Live site: /blog/perseverance-in-motion · desktop 1440px · captured 2026-10-23

Variations (1)

default (77 pages)

Single variation — same as the block screenshot above.

Functionality

- Share to LinkedIn, Facebook, X
- Accessible labels (screen-reader text)

Acceptance criteria

- ☐ Share URLs carry canonical URL

How to verify

- Click each share button

Observed behavior

Share buttons open LinkedIn/Facebook/X share dialogs in a new window.

States: default · share window

search results (1 pages)

Live site: /blog/search?q=nurse · desktop 1440px · captured 2026-10-23

Functionality

- Keyword search
- Roles filter (15 values)
- Topics filter (8 values)
- Sort: Newest, Oldest, Title A–Z, Title Z–A
- Clear filters
- Pagination (9 per page)

- URL state for deep links
- Mixed local + external stories

Acceptance criteria

- ☐ Filters combine; URL reflects state; back button restores state
- ☐ Results count and empty state

How to verify

- Filter Role=Information Technology + Topic=Life at Blue Shield, sort Oldest, page 2, reload

Observed behavior

GET form (q, c[Role], c[Topic], s, search_type=and) reloads /blog/search with results; ?page=N pagination, 9 tiles per page, 13 pages; 39 tiles link to news.blueshieldca.com.

States: default · filtered · paged · empty results
